EDUCATION AND TRAINING

LearningFuze Web Development Training – Irvine, CA – June 2015 – September 2015

- Completed 12 week web development boot camp consisting of an intensive training program requiring 12 hours a day each day of training and coding on individual or team assignments
- Developed skills and real-world knowledge in a project oriented environment modeled after those found in development companies
- Completed a 12 hour hackathon in a team of four students, introducing us to APIs, which gave us experience in delegating tasks, stand-ups for updates, version control merging using GitHub & Git, and relevant research

Bachelor Degree in Advertising & Public Relations, Grand Valley State University, Allendale, MI

- Major coursework included working with teams to develop advertising and public relations campaigns, including research, needs assessments, ensuring complete team participation, and final presentation to large companies
